1.

This new series from Clara House, a division of The Oliver Press, offers young readers a ticket for a private tour of some of America's most exciting places—where people and machines work together to produce the items and services we use every day

After tackling such environs as construction sites and pizza companies, the How It Happens series continues to draw out fascinating details from universal, everyday locations. The perfect series for the technically minded, these titles also nicely extend a unit on careers or community – *Booklist Review 2009*
