## LOOKING AT EUROPE

Though obscured for decades behind communism's Iron Curtain, a handful of newly democratic European countries have burst into the 21<sup>st</sup> century offering much to the world. Looking at Europe, a new, full-color series, examines the rich history of these countries, and the bright future they have.

"These attractively designed titles look at each nation's history, topography, culture, cuisine, transportation, economy, and nature. Captions and frequent sidebars add information to the texts. Each title contains an ethnic recipe. These appealing overviews deserve to be in most collections." —*School Library Journal*
